

Riverview Family Caravan Park

Playground Upgrades

Indicative Design of the South Junior Playground

We are in the planning stage of an exciting upgrade of both playgrounds at the Riverview Caravan Park.

Improved Safety and Accessibility

The playgrounds have served the Park well but are ageing and will be upgraded to refresh the asset and comply with current playground standards.

THE NEW PLAYGROUNDS WILL FEATURE:

- Accessible swings
- Sand play
- New landscaping
- New artworks
- The Northern playground will be aimed at older children in the 6 to 12 age group

- The Southern playground will target the 2 to 6 age range.
- Incorporate Wadawurrung Culture

Bukareeyoo

In recognition of the recent name change of the Ocean Grove Spit, both playgrounds will include artwork and features that will contribute to returning Wadawurrung culture and language to the park.

In Wadawurrung language, "Bukareeyoo" means "between" – as the land sits between the river and the ocean.

Indicative Design of the North Playground

Future Park Improvements

Further improvements at the park are planned following the adoption of the recent master plan. This will include progressive upgrades of BBQ and picnic shelters, pathways, lighting and camp kitchen facilities.

We will keep you informed of further updates as we progress with planning.

Timeline

Project construction will take place late in 2024 with completion expected prior to the peak summer season.

Contact and Feedback

For further information, or, to provide feedback on the upgrade, contact Ian Waugh, Project Officer, Barwon Coast: ianw@barwoncoast.com.au

A3 hard copies of the detailed renders overleaf are available to view at the Barwon Coast head office during regular business hours
